Subject: START has one team available, EPA Water Program has people available

Just FYI, Dave Robinson at START told me he has two RESPEC contractors available in Montana who could be there tomorrow if you need them. One of them is an expert in biology-type issues such as fisheries.

He is also checking on other experts within Weston. He knows of a sediment expert if you need that. Probably could not get him there tomorrow, but could begin the process.

Also on a previous e-mail 8/10/15, Sandy Spence said the following EPA people could be made available:

Groundwater sampling in EP:

Greg Oberley

Tricia Pfeifer

Carol Russell

Gary Kleeman

Surface water in EP:

Julie Kinsey

Lareina Guenzel

Tom Johnson

R8 Lab staff – Groundwater and surface water:

Bill Schroeder – conducted 23 sampling events on the Animas

Jeff McPherson

Joyce Ackerman

On-Scene Coordinator and START P.O.

U.S. EPA Region 8
